

REMARKS: — General

By the above amendment, Applicant has removed reference to U.S. Patent 3,869,711, removed Figs 3C, 3D, and 3E for illustration of a terse, standard mathematical expression, and removed minor adjustments that had been made to improve readability. The specification
5 is now exactly that of the PCT Application. No new material has been added.

The Examiner and others reading the description will be familiar with the expression “without loss of generality” used in mathematical texts to summarize well-known, simple operations such as shifting the origin of a phase function to obtain a canonical form used in
10 the sequel.

CONCLUSION

- 5 Applicant submits that the specification and claims are now in proper form, and that the claims all define patentably over the prior art. Therefore he submits that this application is now in condition for allowance, which action he respectfully solicits.

Conditional Request for Constructive Assistance

- 10 Applicant has amended the specification and claims of this application so that they are proper, definite, and define novel structure that is also unobvious. If, for any reason this application is not believed to be in full condition for allowance, applicant respectfully requests the constructive assistance and suggestions of the Examiner pursuant to M.P.E.P. §
15 2173.02 and § 707.07(j) in order that the undersigned can place this application in allowable condition as soon as possible and without the need for further proceedings.

Very respectfully,

- 20 
Bill R. Baker
